

ONE MEXICAN BANDIT SHOT DOWN BY BIRDMAN

STREETS' GRADES ESTABLISHED BY ALBANY COUNCIL

VERAL PAVING ORDINANCES ARE INTRODUCED BUT ARE NOT PASSED.

sewerage Question Up

REFERRED TO THE CITY ENGINEER BY THE ALDERMANIC BODY.

Ordinances providing for the paving of a number of streets in Albany are introduced at the regular meeting of the city council last night but are not passed in the absence of two members of the body, Aldermen Siverson and Joiner.

Ordinances establishing the grades of fifteen streets were passed, the ones being established as follows: First avenue from Moulton to Second avenue south.

Eighth avenue east from Moulton to Jordan Drive.

Holly street from Second avenue to Fourth avenue east.

Johnston street from city hall to L. N. railroad.

Gordon Drive from Fourth avenue to Somerville road.

Prospect Drive from Second avenue to Somerville road.

Second street south from Second avenue east to Ninth avenue west.

Third avenue east from Prospect to Fourth street south.

Seventh avenue west from Moulton to Second street south.

Sixth avenue west from Moulton to street south.

Third avenue west from Moulton to Third street south.

Second avenue west from Moulton to Prospect Drive.

Jackson street from Eighth avenue to Somerville road.

Somerville road from Tennessee river to corporation line.

Sixth street from Third avenue to Sixth avenue east.

Ordinances providing for the paving of the following were introduced: First avenue from Lee street to Third line of Second avenue, south.

Second avenue east from south line of Jackson to north line of Prospect.

Fourth street south from east line of Sixth avenue to West line of Somerville road.

From Somerville road to south bank of Tennessee river.

Holly street from east line of Second avenue to boundary line, with the exception of those sections within the corporate limits of Decatur.

The council last night took up the question of sewerage for new business houses on Second avenue and referred the matter to the city engineer for adjustment.

AMERICAN FORCES HOT ON TRAIL OF MEXICAN OUTLAWS

Airplanes and Cavalry Are Used in Attempt to "Get" Kidnapers.

(International News Service.)
Camp Travis, San Antonio, Tex., Aug. 20.—An American machine gunner killed one Mexican bandit and wounded a second, when several Mexicans fired at his airplane about 20 miles south of Marfa, Texas, yesterday. The aviator reported by telegram to Gen. Dickman, commander of the southern department, that the Mexicans had fired on him and that he returned the fire, killing one of the Mexicans, wounding one and driving the others to refuge in a canyon. Several shots fired by the Mexicans pierced the wings of the aeroplane.

BANDITS ARE LOCATED

(International News Service.)
EL PASO, Aug. 20.—With the Mexican band of bandits who kidnapped the two U. S. army aviators reported "spotted" by U. S. army flyers, acting as scouts for the troops of the Eighth cavalry, now believed closing in on the bandit rendezvous, word of capture or killing of the entire band is expected hourly at Marfa, according to word received here today. The bandits, led by Jesus Rentario, are known in the Big Bend district as the most desperate of the many roving tribes of outlaws which have terrorized the residents of the border section, and it is not believed they will be captured without the most desperate resistance.

According to reports reaching Marfa during the night, the bandits were sighted by U. S. aviators near Candelaria, Texas. The Americans are said to have dropped several bombs on the fleeing bandits. One aviator returning to Marfa during the night reported that he had been fired upon by three Mexicans. There was a bullet hole in the wing of his airplane. He reported that he had swooped down upon the bandits and fired a round at them from his machine gun as they took cover. He said that he was certain that he killed one of the Mexicans.

AIR FORCE DOUBLED

(International News Service.)
SAN ANTONIO, Aug. 20.—Orders were issued late last night by the headquarters of the southern department of the army doubling the airplane force which is leading the four troops of the Eighth cavalry in pursuit of the Mexican bandit gang led by Jesus Rentario. At dawn eight big machines, carrying machine guns, were with the cavalry forces. A band of Mexicans was encountered in the hills of Chihuahua late yesterday afternoon, and shots were exchanged between them and the American flyers, but no details had been received here when this dispatch was written.

MORE TROOPS GOING IN

(International News Service.)
MARFA, Tex., Aug. 20.—Indications here today are that more United States troops will be sent into Mexico if the bandits who held up two American army aviators for \$50,000 ransom are not rounded up. The troops of the Eighth cavalry, that crossed the border early yesterday, are now 40 miles south of the international line. As they advance they were aided by aeroplanes. Additional cavalrymen and supplies have reached temporary headquarters at Candelaria.

TEXAS GETS READY

(International News Service.)
AUSTIN, Aug. 20.—Following instructions from Governor Hobby, Adjutant General James A. Parley and Brig. Gen. J. F. Peters are today redoubting their efforts to place the Texas National guard in shape to meet any emergency that might arise.

TANKS SENT SOUTH

(International News Service.)
COLUMBUS, Aug. 20.—100 American whippet tanks have been sent to the Mexican border from the United States tank depot at East Columbus. Within the next few days, 3,000 rifles were shipped to border points.

MORE PLANES USED

(International News Service.)
McALLEN, Tex., Aug. 20.—Two U. S. army bombing aeroplanes were ordered today from McAllen to join the American punitive expedition in Mexico. Other planes are being held here in readiness.

ALBANY BOOSTERS LEAVE TOMORROW FOR LIMESTONE

TO VISIT MOORESVILLE, BELLE MINA, HARRIS, TANNER AND STEWART'S X ROADS.

Friday Trip Postponed

INVITATION IS EXTENDED BY SHEFFIELD-MUSCLE SHOALS CLUB.

The Albany Boosters will leave tomorrow morning on the second day of their itinerary. Getting an early start, they will arrive at Mooreville at 9 o'clock, at Belle Mina at 10 o'clock, at Tanner's at 11 o'clock, at Stewart's Cross Roads at 12 o'clock and at Harris Station at 2 o'clock, from which point the start for home will be made. This is the shortest trip of the five originally announced. T. A. Bowles will be the master of ceremonies.

At a meeting of the booster committee held this morning, it was voted to call off the Friday schedule, which included Trinity, Hillsboro, Wheelers, Courtland and Town Creek, owing to the condition of the roads. The trip will be made in September.

The Sheffield-Muscle Shoals club has extended an invitation to the Boosters to visit Sheffield and the Tri-Cities, but no action has as yet been taken on the invitation.

The Boosters returned last night from the first day's trip enthusiastic over the cordial welcome accorded them in the communities visited Tuesday.

Following lunch at Six Mile, during the afternoon the Boosters reached Valhermosa, the farthest point on the day's itinerary, where they were again welcomed by an enthusiastic crowd. A number of guests at the springs there joined in the welcome. Following a band concert, Ben B. Garrison, formally welcomed the Boosters to the community and the response was made by H. L. Spencer. Other addresses were delivered by Judge Henry Martin, of Birmingham, who was a guest on the trip and J. W. Clotson, manager of the Decatur Ice Cream and Creamery company.

Turning homeward, the Boosters drove to Ransom's Store where 200 people had waited an hour and a half to welcome them. The delay was caused by the condition of the roads. Addresses were made by Mr. Spencer, Dr. Wilson, pastor of the Flint circuit, on "Community building and Character building," and by Dr. Martin, of Birmingham.

At both Valhermosa and Ransom's Store the people were enthusiastically in favor of the building of the proposed river road and were assured of the hearty support and cooperation of the Albany Board of Commerce.

Much praise was being given today by the Boosters to A. G. Patterson for the capable manner in which he performed his duties as Program Chairman. He acted as master of ceremonies and added much to the enjoyment of the meetings.

At Somerville the Boosters were accorded cordiality. The military band under the leadership of Prof. Kopp enlivened the occasion and awakened the echoes in this historic old town. E. C. Payne and Otto Moebes addressed the crowd present and were well received. From this point the caravan made a quick drive to Six Mile, where they were met by a good crowd and an enjoyable time had. Following the luncheon hour a run was made to Florette where a large crowd awaited the boosters. Otto W. McCarty, a prominent farmer of Somerville Route 3, extended a warm and eloquent welcome there. A. L. Spencer responding in good style and in a way to make friends for Albany, stressing "good roads."

The following cars will make the trip Thursday:

C. L. Saunders, C. C. Robinson, J. A. Thornhill, R. E. Chandler, Hughes & Tiwell, Otto Moebes, Malone Coast Grain and Motor Co., Friz Mann, Burk Auto Co., Buchheit Bottling Works, Albany-Decatur Daily, A. Bernstein, Soley & Sandlin Hardware Co., Dr. T. Grayson, Patterson Mercantile Co.

R. L. BROOKS OPENS

A BAKERY AT ATHENS

ATHENS, Aug. 20.—R. L. Brooks, of Columbia, Tenn., is here for the purpose of opening a bakery and confectionary.

MR. & MRS. WYKER TELL OF GLORIES OF THE FAR NORTH

NATIVES NOW ARE PROSPERING THROUGH THE GREAT FISHING INDUSTRIES.

Seattle is Still Growing

LONG DAYS OF SUNSHINE MADE THE FRUIT GROW VERY LARGE.

Mr. and Mrs. John D. Wyker, who have just returned home after an extended visit to Alaska, the American Pacific coast, and the Canadian North West, are both very enthusiastic over the wonders that have met their vision in the last two months. Mrs. Wyker, who spoke both for herself and Mr. Wyker, said when seen relative to the trip: "I don't think two people ever came so near over-working the word 'wonderful' as Mr. Wyker and myself when on our trip to Alaska."

"I guess to bring the question up first that is most talked of now, and so to speak, bring my interview down to the minute, I ought to tell first about the great stacks of cold storage we saw. At the capital of Alaska, Juneau, pronounced Juno, we saw 7,000,000 pounds of salmon in cold storage at 20 degrees below zero.

"And it may be news to some to know that not gold hunting, but salmon fishing is the great industry of Alaska. The people seem to be prospering in this work. We saw a man and his son come in from a two days fishing trip in a small motor boat, and would you think it, those two days work netted those fishermen \$175. Skagway, the most northern point in Alaska we visited, now has a population of only a few hundred, while years ago during the gold mining panic there, there were 35,000 people living in Skagway. Gold is still mined throughout Alaska and many of the mines pay, but there is not the mining fever there now that there used to be. Speaking about fish again, we saw Halibut fish as large as a man. We saw lots of fish frozen into blocks of ice.

"A pathetic sight was the fish in the rapids of the streams inhabited by the salmon. These fish climb those rapids in order to deposit their eggs, after which the females die. "These fish make the most desperate efforts some times, before they are able to swim up against the rapids. Some times, we were told, they fall back and have to take long rest periods before attempting again the difficult feat. At such times the fish lie so close that one could step on them.

Skyline Like New York

"One of the most interesting sights we saw was Seattle, Washington. We had visited that city in 1908, and the change by comparison was indeed wonderful. I suppose the city was fifteen or twenty times as large as ten years ago. It reminded me of New York, especially the great skyscrapers, which made a sky line that reminded me of that of New York as seen from the Battery.

"Though we went over the Canadian Pacific railroad we came down into our own country to take the boat for Alaska, and our starting point was Seattle. As you know, Secretary Seward was instrumental in buying Alaska from Russia for \$7,250,000, and as the route to Alaska was laid out via Seattle, the people of that city have erected a handsome monument to Mr. Seward. Another interesting monument in Seattle is the largest 'totem pole' known of. It was just 'taken' from an out of the way Indian village, and as a final consequence this government had to pay an indemnity of \$20,000 to hush the theft up.

"When we took the boat we landed first in Alaska at Ketchikan, then at Petersburg, then at Wrangell, then at Juneau, later at Douglas, at Treadwell and finally at Skagway. In summing up Alaska, I can only repeat what a well known tourist and writer said: 'The Yosemite valley is beautiful; the Yellowstone park is wonderful; the Grand Canyon or Colorado are colossal; but Alaska is all of these.'

Rockies Same as 50 Alps

"Our first stop in the Canadian Rocky mountains was at Banff's Springs where we remained four

(Continued on Page 5)

STEADMAN DOFFS MASK AND STARS ON HURLING HILL

LOCAL RECEIVER WINS EASILY OVER HUNTSVILLE AGGREGATION.

Second Batting Fest

NINETEEN SAFETIES SECURED BY HAMES HIRELINGS, N. BAKER IN LEAD.

The Albany-Decatur outfit took the second game of the three game series yesterday afternoon at the local park, from the Huntsville gang to the tune of 9-5.

Steadman, the Hames first-string receiver, did the hurling and filled the bill brilliantly, the visitors getting but seven safeties for the afternoon. Steadman hurled steadily, issuing no bases on balls and with no wild pitches to his credit. "Bull" succeeded in getting one of the Huntsville crowd via strike out. Daniel, on the hill for the visitors, was hit at will and gave up a total of nineteen bingles with one extra base hit by Bingham. Daniel bested Steadman in the pitcher's battle by getting two whiffs. Halbrooks happened to be the man to add glory to the Huntsville pitching corps in the second game, for "Chec" was the only local to miss the hit column.

N. Baker led the club with an average of .800 or four bingles out of five chances. Bingham, F. Barnes and Roberts tied for batting honors in the second berth, with a percentage of .600 for the afternoon. Wells improved his average with two hits out of five when on the day previous his record showed hits wanted.

One double play was made at the expense of the visiting club. N. Baker ran in and caught a slow fly by Woodall and touched second, getting Sparkman off the sack.

The Box Score:

PETROGRAD DRIVE IN FULL SWING

BRITISH ARE CO-OPERATING WITH THE ANTI-BOLSHEVISTS.

(International News Service.)
LONDON, Aug. 20.—The Anglo-Esthetic offensive against Petrograd is apparently in full swing, with the land forces supported by British air and naval forces.

The following summary of the situation was printed by the Standard today: British munitions are pouring into Reval, and are being supplied to the anti-Bolshevik armies; advices from Bucharest state that the Roumanians are preparing for an offensive against the Russian Reds, joining up the advancing army of the anti-Bolsheviks under Gen. Donitich. In the meanwhile the British are keeping order in the Caucasus and on the Caspian sea.

BURLESON IS GIVEN CONTRACT TO FINISH PIKE TO HARTSELLE

RETURNED FIGHTERS WILL BE GIVEN PREFERENCE FOR THE EMPLOYMENT.

400 Men Are Sought

COMPLETION OF CONTRACT WILL BE RUSHED, NEW ENGINEER DECLARES.

Richard Burleson, well known engineer of Hartselle, recently returned from a year's service in France, has been awarded the contract for completion of the Hartselle pike, which has been in process of construction since 1917. Mr. Burleson announced today that work will be rushed to completion.

Mr. Burleson, who is commander of the Morgan county post of the American Legion, declared today approximately 400 men will be wanted for immediate employment in the construction work and stated preference will be given to returned soldiers, sailors and marines. He notified members of the employment committee of the Legion that he will take care of all applications for work from them for several days and until all of his available vacancies have been filled.

He plans to complete the link between the Somerville pike and Cedar Lake first, thus providing a piked road all of the way to the latter point from here. The rock already has been crushed by the firm formerly holding the contract and work will be started Monday morning.

Four crushers will be pressed into service to facilitate the work and a large number of wagons and teams are wanted to haul the crushed rock. Another big gang will take care of the laying of the rock. A camp will be established temporarily near Flint.

LEE AND BRADFORDS CLEARED ON CHARGE OF MURDER BY JURY

Ex-Sheriff Bent Lee, Newton and Alto Bradford, charged with murder in connection with the death of Herman Vandiver, late yesterday were acquitted by a jury in the Morgan county Circuit court. The case opened yesterday morning and went to the jury at 3:30 o'clock. The verdict was rendered about half an hour later. The case was submitted without argument.

The charges against the Lawrence county citizens grew out of the death of Herman Vandiver, who was shot to death at the home of J. M. Washburn, in Morgan county. The defense declared he was being sought by the officers on a warrant charging him with assault with intent to murder on the person of Bill Bradford.

Reporters Strike and Form Union

(International News Service.)
OMAHA, Aug. 20.—Fifteen reporters employed on the Omaha Bee, who went on strike yesterday, continued the work of organizing a union here today. The striking news writers demanded a 35 per cent increase and one day and night off. The men have applied to the American Federation of Labor for a charter.

Troops on Guard at Cudahy Plant

(International News Service.)
MILWAUKEE, Aug. 20.—A battalion of state guards from Camp Douglas today guards the Cudahy Packing plant at Cudahy, just south of here, where one man was killed and 17 injured in a riot late yesterday. The troops were ordered out by Governor Phillips, and are today guarding the company's buildings. The plant covers an area of 100 acres, and nobody can enter or leave without a military pass.

RAIN FALLS THRU TRESTLE AND ONE MAN DIES; 4 HURT

(International News Service.)
BIRMINGHAM, Aug. 21.—One man was killed and three or four more injured when the engine of the Seminole Limited from Jacksonville dropped through a trestle at Leeds, four blocks from the Southern station Wednesday morning at 11:30 o'clock. The men were working beneath the trestle. The dead man was Frank Houston of Childersburg, Ala. He was killed outright. The injured are all negroes, one of them may die. The train was hauled by Engineer Kirby Post of Columbus, Georgia, who signalled for air brakes in the rear as he was going down.

Actor's Strike is Near Settlement

(International News Service.)
NEW YORK, Aug. 20.—Only one issue seemed to stand in the way today of the settlement of the actor's strike—recognition of the Actor's Equity association.

(Paid Political Advertising.)
We are authorized to announce Hodges Crow as a candidate for Tax Collector of Morgan county, subject to the Democratic primary. Your vote and influence solicited.

PRESIDENT WILSON CONFOUNDS HIS CRITICS

Even a casual reading of the report of the precedent-breaking conference which President Wilson held yesterday with the Foreign Affairs committee of the Senate in the Blue Room of the White House makes it quite clear that the critics of the administration were confounded by the frankness with which their questions were met, and by the evident desire of the nation's executive to give as full and complete a report of the happenings of the peace conference as diplomacy would permit.

If the Republican members of that committee had expected to be able to trap Mr. Wilson they were grievously disappointed, for he proved more than a match even for such astute leaders as Lodge and Johnson. The effect of the round-table discussion will be to again place the republicans on the defensive, and to force the Republican party to bear the onus for further prolonging the period of uncertainty that has brought about national unrest and has sent the cost of living skyward.

Mr. Wilson, at the very outset, asked the republicans for a show down. He urged them to either reject or accept the peace pact as written, thus removing the suspense that is rapidly undermining the stability of governments everywhere. He called on them to act like men and stamp the Versailles document either with their approval or disapproval, instead of continuing needlessly a controversy that leads nowhere and that is inspired by no higher motive than an open play for office.

If the republicans are sincere in contending that the treaty is harmful to American interests they could go on record to that effect in a very short while. If they are not sufficiently courageous to back up their position by a vote, then the hectoring and wrangling and badgering should cease and the treaty should be ratified quickly. The people are the victims of this Republican tendency to play small politics, and are growing weary. They are not blind as to the facts and are quite capable of comprehending the motives that actuate senators who have no fixed program and are unable even to concentrate on any given set of objections.

CREAMERY IN COLUMBIA.

No more gratifying news has been published recently in The Herald than the announcement that Columbia was at last to have a modern creamery of capacity sufficient to take care of all the cream and milk offered for sale in the county. This will do more to encourage the dairying interests, long neglected, than anything that could be done. It will eliminate the economic waste of shipping our raw products to Nashville and then bringing them back in the finished state.

Unquestionably there is more real money, a steadier income, in the dairying business than in any other line of farm operations. Not only is the business of itself profitable but the dairy farmer is constantly and involuntarily adding to his surplus through the upbuilding of his soil. It is becoming all the time more productive and hence more valuable.

With men like Joe Chapman and Bud Lovell of this county behind the enterprise and with it under the general supervision of a proven expert in the line like Mr. Clifton, the people will have every confidence in its continued and successful operation. These gentlemen and others associated or to be associated with them, deserve in full measure the liberal patronage which The Herald predicts they will receive.—Columbia Herald.

Sam Gray's Case**Dismissed in Court**

The case of Sam Gray, negro, charged with slaying Wince Garth, another negro, on the Burke plantation several weeks ago, was dismissed in the Circuit court a verdict being entered for the defendant.

SCHOOL OPENS WITH LARGE ATTENDANCE

The Morgan County High School opened yesterday at Hartselle with an exceptionally large attendance, 160 enrolling, indicating 200 pupils will enter in a few days. Fully one half of the pupils enrolled are boys and girls from the country districts, emphasizing the fact that the whole country is awakening to the advantages of education.

Rev. C. A. Tatum, Joan T. Kyle, member of the county board, and others delivered addresses, after which the principal, John M. Crowell, outlined the work for the coming year. Under the inspiration of the moment steps were taken looking to building a \$20,000 addition to this growing school, which is rapidly forging to the front under the direction of Prof. Crowell, who conducted the high school last year. He was formerly the principal of the agricultural school at Wetumpka.

CITY'S QUOTA FOOD NOT YET EXHAUSTED

Although sales of surplus army food at the Albany postoffice Monday and Tuesday exceeded 10,000 pounds, it was announced today that the city's quota of several items has not yet been exhausted.

The postoffice still has for sale 270 cans of No. 1 baked beans and 1704 cans of No. 3 baked beans. About 800 cans of the No. 1 beans have been sold. There are still 1300 cans of corn, about 1,000 having been sold. There are about 2,000 cans of peas, 800 having been sold. The quota of bacon is not yet gone and there is a large stock of corned beef, roast beef and corned beef hash.

The office still has no prices on cans of pineapple and toilet soap. A price on the two pound cans of jam was received yesterday. It is 24c per can. The quota of stringless beans, 2 pound cans of baked beans, cherries, rice, pepper and vegetable soup was sold the first day of the sale.

The sale will continue until the quota of food allowed Albany is exhausted.

Corner Grocer is in Worst Repute Says Mr. Palmer

(International News Service.)

WASHINGTON, Aug. 20.—Retailers are the worst offenders among profiteers and the greatest volume of complaint against profiteers is against the corner grocer, declared Attorney General Palmer today before a house committee. Palmer urged that no exemption be made in favor of retailers doing less than a \$100,000 business, and asked for speed in enacting his proposed amendment to the food control law, providing penalties of fines and imprisonment for hoarding and profiteering and for including wearing apparel and food containers and fuel under the laws.

Strong Opposition Develops to Bill

(International News Service.)
WASHINGTON, Aug. 20.—Strong opposition to proposed bills to regulate the packing industry developed before the agricultural committee of the senate today. The opposition came from the retail butchers up to the independent packing concerns.

Mischiefousness of Youth.

A young wife put down her book with a sigh. "What is it, darling?" her husband asked. "Ah, dearest, I am so happy!" she replied. "Yes, but you had such a sad look in your eyes just now." "I know, I've been reading about the unhappiness that the wives of men of genius have always had to bear. Oh, Alfred, dear, I'm so glad you're just an ordinary sort of fellow!"

Reading Useless Without Action.

If you want to get value out of a book, however, don't lean on it as though you were a cripple. A book can't take you by sheer force and project you into a good job, or put more money in your pay envelope, or make you industrious or patient when you are otherwise. All you can expect of a book is that it tells you how these things can be accomplished. The real job lies with you.

Alaska's Great Bears.

The great brown bear of Alaska is the largest of all bears, and the largest flesh-eating animals in the world. So far as natural history is concerned, these bears have been known only since 1898. They reach a weight of 1,500 pounds, and unless attacked are offensive giants. They grow fat on salmon of the Alaskan rivers.

Positive Insult.

"Here—take this back to the kitchen!" scolded the grouchy boarder. "What do you mean, bringing me a burned piece of liver? Why, it's not fit even to set before a king!"—Kansas City Star.

LEGION TO MEET ON FRIDAY NIGHT

SESSION WILL BE HELD AT THE DECATUR CITY HALL.

The American Legion, Morgan county Post, will meet Friday night at the Decatur city hall at 8:30 p'clock, it was announced today. The meeting scheduled to have been held last night was postponed until Friday night.

The committee named at the last meeting to formulate by-laws for the local post has completed its work and will make its report at the next conference.

Lieut. Harkreader Arrives at Gotham

IS RETURNING FROM SERVICE OVERSEAS WITH ARMY OCCUPATION.

Lieut. John R. Harkreader, after seeing a years service overseas with the A. E. F., reached New York yesterday on board the Niederlander, according to a telegram to his brother, H. D. Harkreader, of this city. Lieut. Harkreader was in at the finish of the world war, and was within a few miles of Sedan when the armistice was signed. He was later assigned to duty with the army of occupation. Just prior to going across the young officer was stationed at Marfa, on the Mexican border, with the Eighth cavalry, the unit ordered across the Rio Grande yesterday in pursuit of the Mexican bandits that kidnapped Lieuts. Peterson and Davis, of the American aviation service.

Petition Return Of Illinois Troops to the United States

(International News Service.)

WASHINGTON, Aug. 20.—Carrying a petition signed by more than 100,000 Chicagoans asking the immediate return from Siberia of more than 4,000 Illinois drafted men of the 31st and 27th infantry regiments, a delegation of Chicago men and women called at the white house this afternoon to see President Wilson. The delegation was received by Secretary Tumulty, who said that an engagement would be made with the president for them as soon as possible.

We Wash Cars—Frank P. Lide.

Ralph W. Cowart is Back From France

Superintendent Ralph W. Cowart has returned to resume his duties as head of the Albany public schools after more than a year's service with the American forces in France. For the past three months, Prof. Cowart has been a student at Oxford university in England.

Why Lack Of Iron In The Blood May Be Costing You Money Every Day

Many a Capable Man or Woman Falls Just Short Of Winning Because They Don't Back Up Their Mentality With Physical Strength and Energy

Get some of the money—don't let the other fellow have it all—just because you are too weak, nervous and run-down to go after it with the same vim that gets him what he wants. Make yourself a man of blood and iron—a woman of power and vitality.

"Many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which comes from having plenty of iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Stated Iron. It often increases the strength and endurance of weak, nervous, run-down people in two weeks' time."

Stated Iron is recommended by physicians, and what is now being used by over three million people annually is not a secret remedy but one which every body knows. It is a pure, natural iron compound, and does not cause the constipation, headache, indigestion, and other ailments which are the result of the use of many of the so-called "iron" preparations. It is a powerful, yet gentle, and it is the only iron preparation that is so easily absorbed and so quickly assimilated. It is the only iron preparation that is so easily absorbed and so quickly assimilated. It is the only iron preparation that is so easily absorbed and so quickly assimilated.

CONSUMERS:

Insist on your merchant giving you "Sunlight," "Ready" or "St. Mary's" Flours. Best flours on the market for the money.

A. Z. BAILEY GROCERY CO., Jobbers
Albany, Ala.

"PERFECTION"

Does Not Mean Just One Mattress

It is the family name for all mattresses produced by this company. Some folks prefer a tufted mattress—others favor one that is unfutted. In either kind our Perfection-Made label is your certainty of comfort and long service.

The label means exactly what it says: "Absolute satisfaction or your money back without delay." What is more, we say "Sleep on a Perfection-Made Mattress for sixty nights and if you are willing to part with it, get your money refunded."

Look For the Label--Demand It

It is worth insisting upon because our patented process of manufacture does not allow the superfine cotton felt to get lumpy. With Perfection-Made Mattresses and Perfection-Made Springs your bed is one that will always yield a full night's rest and get you up in the morning feeling as "fresh as a daisy."

Every bed is a better bed that can boast of Perfection equipment. If you like, have the dealer slit the ticking, and show you what's inside. Then you can see for yourself that nothing less than what we offer is good enough for you. Perfection Mattresses and Springs cost no more than inferior kinds. Once again—insist upon them.

LEADING DEALERS IN MOST CENTERS SELL PERFECTION-MADE MATTRESSES AND SPRINGS. ASK FOR THEM. IF YOU CAN'T BE SUPPLIED WRITE US DIRECT.

J. A. Buttrey Is Back From East

J. A. Buttrey, prominent Second avenue merchant, returned last night from New York where he has been purchasing goods for the new Buttrey home, just above the postoffice. "There is plenty of merchandise to be bought in New York provided the

merchants are willing to back their judgment with nerve and cash," Mr. Buttrey declared. He stated he bought the most attractive lines he has ever carried.

Dates of Western Trading Companies. The Hudson's Bay company was chartered in 1670 by Prince Rupert and others. The North West Fur company of Montreal was formed in 1773, and the two joined forces in 1821.

AFTER IT HAPPENS
there's no use regretting that you failed to take out a policy of accident insurance in our company. **BEFORE** the thing happens and have no regrets or twinges of conscience in regard to your family. The cost is small, the benefits to you and your own great. Accidents cannot be prevented—financial loss and mental worry can.

I FELT LIKE I WAS BURNING UP IN MY STOMACH

Kilby Car and Foundry Co. Man Declares that he has overcome bad case of stomach trouble, indigestion and constipation, with Dreo, the new remedy.

"I think the new medicine Dreo is the greatest medicine I ever saw for stomach trouble and constipation," declared Mr. D. T. Carter of 405 Pine St., Anniston, Ala. Mr. Carter has been at the Kilby Car and Foundry Co. for many years, and is well known and highly respected by all who know him.

"I suffered every day from gas in my stomach after meals. My food soured and would bloat me up awful, and it felt like I was burning up in my stomach. I would often belch up water as hot as fire, and I could not enjoy my meals on account of this trouble. My liver was also in bad shape, and I'd get so dizzy I'd have to stop work, and lay down until the dizziness passed off. My bowels were bound up and I'd have to take pills or salts or something of the kind regularly.

"A friend working here in the shop got me to try Dreo, as it had helped him so much. It surely has done me worlds of good too. I can now eat all I want and never have that gas to bother me, nor a headache. I have not had a single dizzy spell since I started to take Dreo, neither have I had to take any medicine to work my bowels, for Dreo has made them as regular as clockwork. I can't say enough in praise of this great root and herb medicine. It is simply fine."

All good druggists now sell Dreo and it is highly recommended in Albany by Albany Drug Co. and in Decatur by Hilda Drug Co.—Advertisement.

BRIDGE LINEN SHOWER FOR MISS WILLIAMSON A BRIDE ELECT OF SATURDAY

A beautiful affair, one of the many prenuptial, being given for Miss Lynda Williamson, a bride elect of Saturday was given Monday afternoon at the residence of Mrs. Sam Irwin. The shower was complete surprise for the honoree, she thinking it was only the regular meeting of the little card club of which she is a member, and she was particularly surprised yesterday in a little afternoon gown of white net over pink satin with harmonizing accessories. Roses in tones of pink and white decorated the rooms in which the games were played at the conclusion of which tempting ices were served in which the wedding motif of pink and white was repeated. Miss Bessie Speake made top score. Those present were Mesdames Russell Green, Robert Daniell, Richard Jones, E. J. Polhill, H. D. Greer, W. Cowden, R. E. Pearson, W. Wyker, Will Garnett, R. E. Pearson, Misses Marcella and Louise Collier, Vivian Timman, Ethel McEntire, Iris Finley, Bessie Speake, Lynda Williamson. The basket of dainty gifts was brought in after the game, by little Harriett Irwin. A no more surprised girl than the honoree could have been found, her appreciation was affectingly sincere.

WHEN DREAMS COME TRUE

A dream of the women of Albany has materialized. The play ground for children is shaping itself rapidly. Through the material effort of the Advisory Board of the Woman's Auxiliary of the Board of Commerce, Mrs. W. E. Todd, president; Mrs. Kimball B. Jones, Mrs. F. F. Tidwell, Mrs. Louis A. Neil, Mrs. W. R. Shelton and the assistance of the general board, five pieces are about ready for erection, in fact the slide is up. Last evening swarms of children were on the school ground, and as the cry "Oh, its the most fun!" is ample appreciation, men stood about with joy registered on their faces, delighted to see their own little ones and those of their neighbors having the time of their lives. Mr. H. S. Roberts went on last evening as supervisor, a delight in childish sports still alive in her—just the goodness of her, went over and remained with the children till closing time, and they had a dandy time. Mrs. Kimball Jones has been untiring in her effort, having attended to the business of it, her superintendency of the Albany school has made for the schools a remarkable record in progress.

COMPLIMENT TO VISITORS

Sarah Humphrey is entertaining five tables at Rook Thursday morning at ten o'clock, in compliment to the visiting girls of the Twin Cities.

ANNOUNCEMENT

Capt. and Mrs. C. F. Rowden announce the marriage of their daughter, Mattie Alcen, to Mr. Walter B. Cary at Nashville, Tenn., December 14th, 1918.

Myrtle Graves is at Trinity, the guest of Mildred Moebes.

Mrs. H. T. Gill has returned from Huntsville.

Mrs. Kimball B. Jones and daughter, Mary, left this afternoon for a stay of three weeks at Weaversville, N. C.

Mrs. R. E. Hewlett is convalescent, after a serious malarial attack.

Miss Lorraine Gibson, of Cullman has returned home after visiting her aunt, Mrs. W. F. Johnson and other relatives and friends here.

Mrs. Fred Knight and children are the guests of Mrs. G. Green.

Mrs. Stanley Green and Mrs. Fred Knight are to be the week end guests of Mrs. Richard Harwood at Pulaski, Tenn.

Mrs. J. H. Scoggin, after several months visit to her daughters, Mesdames W. L. Hatchett and Walter Chandler, has returned to her home in Nashville, Tenn.

E. B. Rowden is spending his vacation with friends at Chattanooga, Athens, Etowah, Knoxville and Atlanta.

Mrs. W. O. Henderson of Somerville is convalescing from an illness of over a month. Mrs. Henderson has been ill of typhoid.

Mr. and Mrs. G. F. Keys left Sunday for Louisville and Lexington, Ky., to visit Mr. and Mrs. J. M. Morris. While away will visit points in Kentucky.

Mrs. Harvey McElwee continues to improve in health.

Mrs. W. B. Edmundson left yesterday for Hot Springs, Ark.

Mr. and Mrs. John Green have returned from South Alabama.

DANCE FRIDAY EVENING

A dance will be given Friday evening at the pavilion on Trinity Mountain, with music by a negro orchestra. A large attendance of the dancing set is expected.

Mrs. William Manson, who has been visiting her sister, Miss Louise Robinson, lately returned Missionary from China, has returned to her home in Murfreesboro, Tenn. Miss Robinson will be in America for at least a year, and during this winter will receive special training in her chosen work.

Mrs. E. D. Whitman is in Birmingham where she is the guest of Mrs. Berry.

Miss Thompson of Florence is the guest of her aunt, Mrs. Charlie Odum.

PERSONALS

R. W. Cowart arrived today from Troy. The cities welcome him, one who has returned from a grave duty to carry on having broadened his experience by contact with older educational centers.

J. B. Fleming has as his guest, his mother, Mrs. Fleming of Lynville, Tenn.

Joe Gusche returned last night from a two-year service overseas, during a part of which he was stationed at Bassens, France. He will remain here for some time.

Will Reeves, for twenty-five years foreman of the Maury Democrat at Columbia, Tenn., is here today en route to Huntsville, where he has accepted a position on the Times. Mr. Reeves is an accomplished printer, an exceptionally reliable man and a gentleman that will be an acquisition to Huntsville.

L. M. Huff, of Corinth, Miss., who has just returned from two years service overseas with the American forces, has accepted a position with the Albany Drug Company.

E. D. Whitman has returned from Birmingham where he accompanied his brother, Lynne Whitman, who was operated on at McAdoo's infirmary. Reports from Mr. Whitman's bedside today are that he is improving.

BIRTH

Born to Mr. and Mrs. J. H. Lipscomb of Slide, La., a daughter.

Standard Oil is Ordered to Stop Leasing Methods

(International News Service.) WASHINGTON, Aug. 20.—The federal trade commission has taken action to stop the leasing of gasoline pumps and tanks to retail dealers by oil companies on exclusive dealing terms intended to stifle competition. An order to cease this practice was today served on the Standard Oil Company of Indiana.

Senate to Probe Price of Paper

(International News Service.) WASHINGTON, Aug. 20.—The senate today adopted Senator Reed's resolution calling for an investigation of the news print paper situation.

Manager of Fruit Combine Indicted

(International News Service.) CLEVELAND, O., Aug. 20.—Geo. W. Williams, local manager of the California Fruit Growers Exchange, was indicted this afternoon by the special grand jury investigating the high cost of living. He is charged with violations of the Balentine anti-trust laws. Immediately following the indictment, County Prosecutor Deorsler announced that he had uncovered startling evidence of collusion among fruit dealers and the federal authorities would be asked to take action against the national association.

CONDEMNNS ADMINISTRATION

(International News Service.) WASHINGTON, Aug. 20.—Calling on the state department for full information concerning the ransoming of the two American army airmen captured by Mexican bandits, in a resolution introduced in the house this afternoon, Representative Newton of Minn., condemned the administration's "watchful waiting" policy as applied to Mexico.

Who Founded Jerusalem?

Origin and early history are obscure. It was identified by Josephus with Salem, a city whose king some thirty-five centuries ago was Melchisedech, a Chaldean. The city did not pass completely to possession of the Jews until the time of David.

ROUMANIA WON'T SIGN PEACE PACT

OBJECTS BECAUSE BOUNDARIES ARE NOT CLEARLY DEFINED.

(International News Service.) PARIS, Aug. 20.—Roumania will refuse to sign the Austrian treaty when the pact is up for final consideration next week, it was learned today from an authoritative source. At the same time it is reported that Roumania is attempting to build up a new federation, including Poland and Ukraine. Roumania opposes signing the treaty upon the fact that the new Roumanian boundaries are not defined but are left to the council of four.

What Is Wise Spending?

Wise spending is the foundation of intelligent saving. We must spend to live; just as we must work to earn.

If we spend foolishly, we get less for our work, have less to save, less to spend in the future.

Wise spending means that we think before we spend. Then we buy, to our ability, what we really need today. But we wisely hold some money, for tomorrow's, or next month's or next year's needs or unforeseen emergencies.

Wise spending gives us more for our work now, and leaves more money for future spending.

It is getting full value in goods, comforts, service, advancement, and fun.

War Savings Stamps are a wise purchase.

OIL 40,000 Barrels a Day Is Being Produced In the WEST COLUMBIA FIELD

Here Is Your Opportunity. Read the Facts!

Ten months ago West Columbia, Texas, was a pasture. Today it is a huge, proven, producing oil field in the same locality as our holdings.

The first well brought in last December has produced more than 1,000,000 barrels, giving stockholders immense wealth.

The second well came in producing at the rate of 10,000 barrels a day and stockholders made fortunes over night.

There is no secret or mystery about the oil business. It's open and above board. All we need is enough finances to build a refinery and drill wells.

The big question, "Where Shall I Invest?" Invest in a responsible company having well selected acreage in many fields. We offer you the rare opportunity in the great Texas fields.

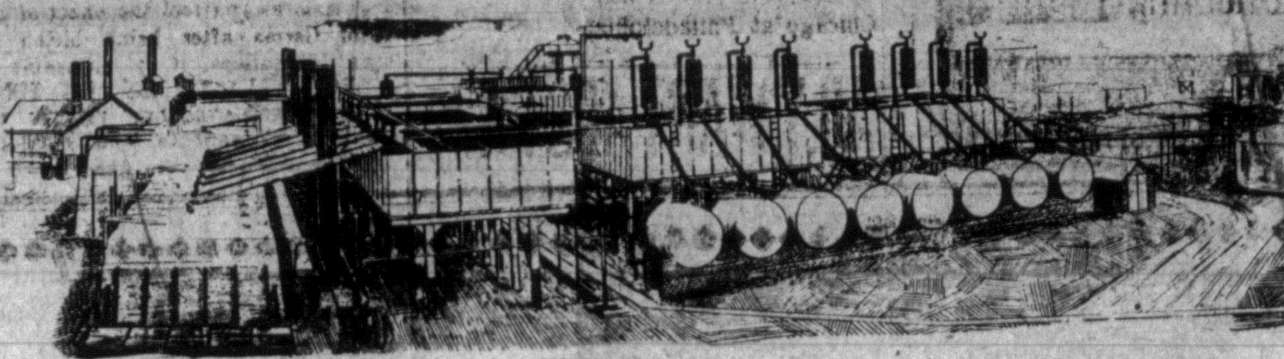

Keen, alert investors from the north, east and west are pouring into Texas by the thousands to secure a share of this newly made wealth. They realize the tremendous possibilities of these wonderful oil fields. Our hotels, our towns, our cities, are crowded—overflowing—and still they come. These newcomers know that fortunes are being made faster than anywhere else in the world today.

Our Titles Have Been Verified by Hutcherson-Bryan & Dyess, Leading Attorneys of Houston, Texas. We submitted our proposition to the Secretary of State of Ala. and have been granted permission to do business

YOUR SAFE INVESTMENT

OUR PROPOSED MODERN REFINERY, that will make possible large, quick, steady dividends on your investment. The refining of oils is a proven business, not a speculation or theoretical proposition. Below is given a general idea of the present earnings of some of the large refining companies, data compiled by leading New York brokerage house.

MOGUL PRODUCE AND REFINING CO.

We have four tracts in Erath County, totaling 243 acres—three tracts in Taylor County, totaling 242 acres—Jones County, 80 acres—Van Zant County, 93 acres—and our grand acreage at West Columbia, 1305 acres valued at more than \$1,000,000. The possibilities of the increasing value alone means dividends and the present acreage protects your investment with us.

Cosden & Co., Refiners. Capitalization \$5,783,865. Par value \$5. Selling now around \$13 per share. Paid cash dividends 7 per cent April, 1916; 7 per cent August, 1916, and a stock dividend of 50 per cent was paid August 6, 1916.

Atlantic Refining Co. Capital stock, \$5,000,000; par, \$100. Selling around \$960 per share. This stock has risen from \$675 in August of 1916 to its present price. Earnings since the dissolution of the Standard Oil Co. indicate an average yearly rate of 71 per cent.

Sapula Refining Company. Capitalization, \$1,000,000; par value \$5. Selling now around \$10 a share. Sapula is paying 2 per cent per month, or at the rate of 24 per cent per annum, and is reported earning around 80 per cent on its stock.

Muskogee Refining Co. Capitalization, \$500,000; par value \$1. Selling now around \$5.50 per share.

Midwest Refining Co. Capitalization, \$18,000,000; par value, \$50; selling around \$184 per share; earning at present running at the rate of about 35 per cent on its entire capitalization.

Making An Oil Investment

Before making an investment in independent oil securities bear in mind that the greatest profits are not made by purchasing stocks that have already practically reached the top but in acquiring the shares of the newly, well organized, capably managed oil companies. It is such stocks that should figure prominently in the big advances, inasmuch as they have yet to reflect in the market their intrinsic worth and growing possibilities. What dividends will the Mogul be paying and what will the stock that you can buy now at one dollar a share be worth in six months?

Plan of Operation

Our plan of operation will be along the lines of the "giant" companies; that is, engage in the oil and refining business in all its phases. We diversify our operations, thereby reducing the possibility of loss to a minimum and at the same time enabling your investment to participate in all the branches of the oil business, just as though you had put a hundred dollars in a drilling company putting down one well, another hundred in a refining company and another in a leasing company. YOU DIVERSIFY your investment by investing in the Mogul Producing & Refining Co., who DIVERSIFY THEIR OPERATIONS.

Migratory Bird Law.

The constitutionality of the federal migratory bird treaty act, approved July 3, 1918, is upheld in an opinion rendered not long ago by Federal Judge Jacob Trieber of the eastern district of Arkansas in the case of the United States against E. D. Thompson of Memphis, charged with killing and possessing one robin in violation of the act.

This is one of the most important decisions ever rendered affecting the conservation of wild life. It sustains the right of congress to enact legislation to insure the execution of the terms of the treaty between the United States and Great Britain, concluded August 16, 1916, for the protection of migratory birds in the United States and Canada.

It will be recalled that Judge Trieber in 1914, in the case of United States against Harvey C. Shauver, decided that the migratory bird law, approved March 4, 1913, was unconstitutional. The present law repealed the act of 1913. Birmingham Age-Herald.

Claims Philadelphia Land.

The city of Philadelphia has been reminded, in an unexpected fashion, of its association with William Penn. He reserved for the Indians two small pieces of land where they might come in peace and build their council fires. One of them, a patch of 85 feet by 100, under the shadow of the towering Ritz-Carlton hotel, is now covered with asphalt. The other is used as a storage and dumping ground for odds and ends. There has appeared an Indian princess named No-toh-tha, which means, in the Seneca language, "Never contented"—claiming these reservations for the use of her people. She has filed her application with the Indian Rights association, and intends, if necessary, to invoke the aid of the Six Nations of New York.

Millionaires and Nickels.

Mr. Tompkins meant well, but he was not as happy as usual, when he lauded the returned soldiers by saying they cared no more for their lives when they went into battle than a millionaire cares for a nickel. This metaphor does not measure the heroism of our men. Once we knew a millionaire whose favorite expression was: "Five cents is the interest on a dollar for a whole year." We know others who feel the same way. —Baltimore Sun.

Mr. & Mrs. Wyker

Tell of the Glories of the Far North

(Continued from Page 1.)

The hotels along the Canadian Pacific Railway are managed by the railroad, and the service was superior to that of the Flagler Hotels along the Florida East Coast Railroad. The Chateau of this system is said to be the finest hotel anywhere. Our next stop was Lake Louise, where one day it was hot, and the next it was cold and much snow fell. Here we first saw the glaciers, the frozen rivers of the great mountains.

Tourists who knew told us that in these mountains we saw sights equal to those of fifty European Alps. To give you some idea of the magnitude of these American Rockies, as compared to the Alps, it took us 24 hours to pass through 'our' Alps, while a train runs through the European Alps in 5 hours. There were 147 peaks in this section over 10,000 feet high, and 46 over 11,000 feet high. At a city called Glacier we spent several days, and happened in just as they were celebrating victory over Germany.

'God save the King' was sung a great deal. We also on a Sunday attended a peace thanksgiving service there. As we came back a Canadian girl was saying to us that America did not feel the war in comparison to the Canadians, and said they had so many cripples. I ventured to say that our boys went so fast and so far, against the enemy, that we had few cripples as they either got killed or killed the enemy.

"I must tell about the great wheat fields, and orchards. There were lots of apples twelve inches in diameter and the trees were loaded. We had our attention called to onions in pictures that looked many feet in diameter, but we did not actually see any that large. And as for flowers, I saw dahlias, some as large as Mr. Wyker's cap. It must be the long days of sunshine that makes much of the vegetation so large. It is said that it is the long days that makes the wheat mature so grandly up there.

The saddest sight we saw was an Indian father who had just lost two of his sons by drowning. It is the custom in Alaska for the Indians to raise the American flag at times of

Mosquito Bites

Just as soon as you feel the effect of the Malaria Germs after being bitten by Malaria Mosquitoes, it is advisable to take GROVE'S TASTELESS CHILL TONIC to destroy the Germs and remove the impurities. Pleasant to take. 60c per bottle.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught."

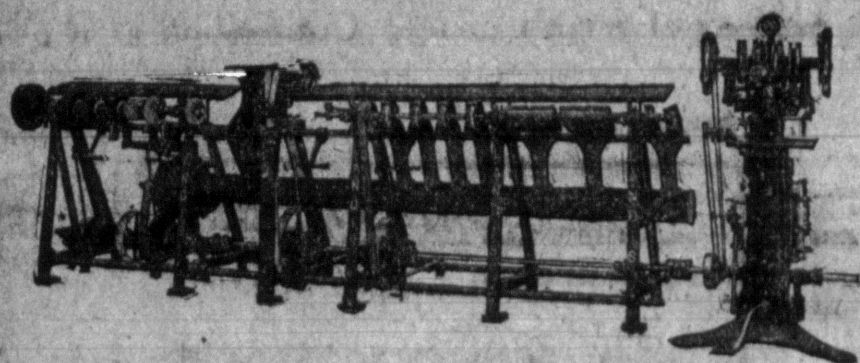

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists.

J. 69

The Ford truck is really a greater necessity to the farmer than is a team of horses. Certainly it is a greater utility and economy for him. It saves times, it gives prompt and almost unlimited service along the entire line of farm work from carrying the milk to marketing the products of the farm. It is not expensive to maintain and has all the Ford simplicity in mechanism that makes it easy to operate. The price, too, is attractive, about the price of a team of horses; \$550, without body, f. o. b. Detroit.

EQUAL TO THE EMERGENCY

American Genius Quickly Produced Precision Blocks Accurate to Millionth Part of Inch.

One of America's little-known war romances is revealed by John H. Van Deventer in his story of precision gauges, which appears in Everybody's. Virtually all of our munitions had to be made to limit gauges which had to be corrected by means of precision blocks to within a few millionths of an inch. "Twenty years ago," writes Mr. Van Deventer, "a Swedish tool-maker named Johansson made up his mind that the millionth of an inch was the coming thing—hunted during nine years for a practical way to get it and got it. How? Nobody knows except Johansson, and he won't tell. For over nine years he kept everybody guessing. Our best shops imported his blocks and used them for checking the gauges.

"Then came the war, with its wonderful stimulation of American genius. With it came also the need of being independent of the old world in the matter of gauges.

"The war took E. C. Peck away from his job of running a great factory in Cleveland and brought him to Washington to take charge of the gauging of ordnance products. It brought William E. Hoke of St. Louis to the bureau of standards, with an idea of how to produce precision blocks. Colonel Peck and Major Hoke got together, and in six months were turning out precision blocks accurate to the millionth part of an inch."

IS LARGEST OF INDUSTRIES

Statisticians Figure in Billions When They Make Computations of Live Stock Business.

The live stock industry is the largest and, in more than one sense, the most important industry in the United States. Its extent, measured by the value of live animals, amounts to more than \$8,000,000,000. Its importance rests in the necessity for live stock to consume the products of farms and ranges, 80 per cent of which, according to census reports, is fed to live stock; in the maintenance of soil fertility, which cannot be kept up continuously and economically without a considerable number of animals as a part of the farm system; in the indispensable place which animal food occupies in the American diet, of which it makes up 35 per cent, based on the average consumer's food-expenditure account; and finally, in the far-reaching influence which the growing, fattening and marketing of live stock has upon the social and economic welfare of all classes of people, including producers, distributors, and the meat-consuming public.

The slaughtering and meat packing business is the largest manufacturing industry in the United States, according to the United States census of manufacturers. The sales of live stock in the Chicago market alone totaled nearly \$1,000,000,000 in 1918, or over \$3,000,000 a day, and the daily sales at all of the centralized live stock markets of this country total close to \$20,000,000.

England Harbors Ex-Queens.

England will soon be the land of five queens, a potential and powerful group either in politics or poker. The figure resembles a misdeal, but it is explained by the fact that England has a queen and a queen mother, while there are in England the one-time queens of two other countries. They are soon to be joined by another, Empress Marie of Russia. She and the two other foreign ladies are deep in unhappiness—three of the saddest queens, as an observer has remarked, in modern history. The two whom Empress Marie will join are Empress Eugenie and the queen mother of Portugal.

These three women plainly tell the story of greatness. One of them was driven from her throne and her son was killed fighting for another country; another was exiled after having been robbed of her husband and son, and her other son driven from the throne; the last was widowed and her son, her grandson and her granddaughters brutally murdered.

Breeding Makes No Difference.

It has been claimed by lovers of domestic cats that highly bred members of the species do not engage in hunting insectivorous and song birds. A few days ago a city gardener captured a handsome cat in the act of killing a young robin which had just left its nest near his house. He did not kill the bird hunter, under the authority recently granted by the Conservation Commission, but took the animal and its victim to the home of the cat's owner. There he learned that the cat was a highly prized ribbon-maker; and the owner was indignant at its capture.—Hochester Democrat and Chronicle.

Get Revenue From Pests.

Rabbit skins from Australia and New Zealand were among the largest offerings in the recent international fur auction at St. Louis. Half a million pounds of Australian rabbit and 50,000 pounds of New Zealand were sold for a total of \$335,000. The largest lots went to hatters and felt manufacturers.

Nothing Doing.

Fisherman—Is this public water?
Native—Yes.
Fisherman—Then it won't be a crime if I land a fish?
Native—No; it'll be a miracle!

His Vices for Sadness.

Away with sadness! She often raps at my door, and while I try not to be rude, I always pretend to be very busy. Just a light word of recognition by way of common politeness! Then laugh if you can, an' do it quickly, lad, an' she will pass on.—Exchange.

AMUSEMENTS

SUPREME SACRIFICE OF GIRL'S LOVE SEEN IN "TWO WOMEN"

Anita Stewart Has Role of Tremendous Dramatic Intensity in Vitagraph Picture Written by James Oliver Curwood.—Masonic Theatre Wednesday.

The supreme sacrifice of a girl's love is filmed with tremendous force in "Two Women," the Anita Stewart picture which will be seen at the Masonic theatre today. Enid Arden, the mountain child portrayed by Miss Stewart has given her heart and her promise to John Leighton, clean living and thinking man, just freed, as both believe, from the woman who has proved herself unworthy of the affection he had given her.

In Enid's mountain home, she and John are planning for their marriage when the wire comes in, just parted from her latest paramour. John with true vision sees there is only perjury in her protestations of remorse and new born love. But Enid sees her as a child and although it breaks her heart, she renounces her own love and bids him to return with his wife, to remake her again a woman.

Miss Stewart rises to new dramatic heights in this great scene, only one, however, of many of this great drama of contrasting woman types, written by James Oliver Curwood. The setting of the story is a beautiful mountain country so often employed by this author.

Vitagraph has given "Two Women" a splendid production. It was directed by Ralph Ince, and in the supporting cast are Earle Williams, Julia Swayne Gordon, Frank Currier and Harry Northrup.

Lime Water.

Slack one-half cupful of lime with about one-half pint of water, slowly added; when slacked well add one quart of water and stir thoroughly, allow it to settle, decant closely and pour the water away, then add one gallon of fresh, clear distilled water or rain water to the washed lime; shake often for a day or two and let settle.

NO FURNITURE TAKEN AWAY BY SOLONS FOR FIRST TIME IN MISSOURI'S HISTORY

(International News Service.)

JEFFERSON CITY, Mo., Aug. 20.—For the first time in the history of the State Capitol—at least within the memory of attaches here—there is not a bit of missing furniture from the legislative building. Heretofore the Solons are said to have sold furniture to themselves at low prices.

This is the declaration of Louis Ratliff, commissioner of the permanent seat of government. It is Ratliff's first time as custodian of the property after a Legislature has adjourned. Unusual as it may seem, records in his office show nothing is missing, Ratliff said.

"The State Auditor was telling me about some of his furniture being missing," said Ratliff, "but I made an investigation and found all of it for him. Three cuspidors—the cheapst ones we had—and two small mirrors were carried away, but no furniture is missing."

Sacrilege.

The Kansas Industrialist says skunk oil and rattlesnake oil are worthless as liniments for rheumatism and kindred ills. Just how far should college papers be allowed to go in interference with free beliefs founded on the traditions of centuries? Pretty soon these young whippersnappers will be telling us that asafetida amulets ward off neither germs nor devils, and that red beads around the neck won't stop nosebleed.—Grit.

TO PALE PEOPLE— YOUR BLOOD MAY BE STARVING FOR IRON!

If Your Blood Needs Iron, It Needs ZIRON, the New Compound of Iron, Which Acts as a Strengthening Tonic, Enriching the Blood and Building up the System.

When your blood lacks the proper proportion of red corpuscles to give your complexion the "rosy hue of health" and your complexion is pale, "pasty-looking", perhaps even greenish-tinged, you are probably of an anemic or chlorotic nature, and your blood needs Ziron, to bring back the rich, red flush of health.

Ziron, the new compound of iron, the hypophosphites of lime and soda, and other tonic, strengthening ingredients, has been found of great value in conditions of simple anemia, chlorosis, debility, nervousness, lack of ambition, loss of appetite, dyspepsia, etc. It is a valuable reconstructive tonic, in cases of weakness, and helps build up the constitution after severe illness.

Mrs. Mae Belle Perkins, of Adairsville, Ga., writes: "About two months ago I got to feeling badly. My back hurt me badly, and my legs and arms hurt too, and I didn't have any appetite at all to eat. About two weeks ago I commenced taking Ziron, according to directions on the bottle. By the time I had taken the medicine for a week, I could see it was doing me good. I had been weak and nervous, and it made me feel stronger, and I'm not a bit nervous now. My back is all right, and my arms and legs do not ache. And my appetite is good again.

Before I started using Ziron I wouldn't rest at night, I was so tired feeling and felt worn out. I have used nearly the whole bottle and now I sleep fine every night. It sure is a fine medicine, and I am glad I tried it."

Ziron is non-alcoholic, contains no habit-forming drugs, acts gently, has no bad effects, is good for men, women and children. It is a medicine of genuine composed of ingredients prescribed by eminent physicians. Try it.

SPECIAL OFFER: Buy a bottle of ZIRON, today, at your druggist's and give it a fair trial, on condition to direct. After using one bottle, if you find it has not benefited you, take it back to the druggist and he will refund what you paid him for it. We repay him, so there is no reason why he should not repay you. This offer only applies to the first trial bottle.

OPENING OF THE PERSHING STADIUM IN FRANCE

Left to right: Col. Walter C. Johnson, athletic director of the American expeditionary forces and chairman of the interallied games committee; General Pershing, President Poincaré of France, and French Minister of Marine Leygue inspecting the allied soldiers taking part in the opening day's ceremonies at Pershing stadium, Joinville, France, near Paris. Every allied nation was represented at the opening of the great athletic field, which is intended to be a permanent monument to the American army in France.

Bowles Says Roads of the North Fine

BANKER AND PARTY RETURN FROM A LONG MOTOR TRIP.

That the highways of the eastern and northern states are better than the streets of the Twin Cities was the statement made here today by T. A. Bowles, cashier of the Central National Bank, on his return from a long motor trip. Mr. Bowles was accompanied by Mrs. Bowles, Misses Elizabeth Neill and Martha Killebrew, of Nashville. Mrs. Robert Tweedy Jr., of Courtland, joined the party at New York for the long journey home.

Leaving here a month ago, the party motored to Jacksonville, Fla., and at that place shipped their car through to Baltimore and took the boat for the Maryland metropolis. At Baltimore the motor trip was continued to New York City, from which point the start south was made.

Many Tributes Are Paid Judge Sharpe

Many tributes were paid to the memory of the late Judge Henry A. Sharpe, former Morgan countian, by the Birmingham Bar Association at a meeting there Monday. Judge S. D. Weakley presided and resolutions commemorating the respect and regard in which Judge Sharpe was held by his associates were passed.

Worth it.

Tommy (held up from eating too much dinner)—"I feel awfully sick now, but it was worth it."—Boston Transcript.

Address Sought of Bertha May Jones

The Home Service Section of the Morgan County Red Cross today requested information regarding the present address of Bertha May Jones, whose old address was given as Albany, Route 3. An allotment and allowance check is being held for her.

Truck is Struck by Wrecker, Damaged

One of the dump trucks, owned by the county and engaged in road work south of here, was struck by a Louisville and Nashville wrecker yesterday and badly damaged, according to reports received here. The two occupants of the truck jumped to safety and escaped without injury.

First Time Reckoning.

Perhaps the first reference to attempts to reckon time by mechanical means is found in Isaiah xxxviii, 8, written supposedly about 713 B. C. "the sun dial of Ahaz." Pliny says that Anaximander invented a sun dial about 550 B. C. The first sun dial at Rome was placed in the temple of Quirinus, about 298 B. C., when time was divided into hours. The clepsydra, or water clock, was the next time recorder invented.

Shark Food.

In Bermuda small ground sharks are used for food and much appreciated by all classes. The fish average from eight to ten pounds and sell for 12 cents each. In Honolulu the hammerhead shark is frequently seen in the markets and its flesh is considered very nourishing and is extensively salted.

Visitors Accompany the Albany Boosters

Dr. H. L. Martin, wife, daughter and son, Judge H. J. Martin, of Birmingham, are guests of Dr. F. R. Beason and family and W. J. Garnett and family. Doctor and Judge Martin accompanied the Albany Boosters on their itinerary yesterday and expressed themselves well pleased with the enthusiasm and co-operative spirit shown.

GRADE ORDINANCE NO. 357.
BE IT ORDAINED, by the City Council of the City of Albany, Alabama:

SECTION 1: That the grades of the center line of the following streets within the limits and distances as specified, be and the same are, hereby fixed and established as shown on the profile sheets, each of which has been heretofore exhibited to the City Council and is now on file in the City Hall in the office of the City Clerk of the City of Albany, Alabama.

SECTION 2: That the grades of the curbs on both sides of the streets within the limits and distances as specified shall conform with the grade of the center line of the street in such way as to most effectively provide drainage from said streets and protect the streets from erosion, flooding, filling in with mud, etc.

PROFILE NO.

1. First Avenue East from Moulton to Second street south.
2. Eighth Avenue East from Moulton to Gordon Drive.
3. Johnson street from City Hall to L. & N. railroad.
3. Holly street from Second Avenue East to Fourth Avenue East.
4. Gordon Drive from Fourth Avenue East to Somerville Road.
5. Prospect Drive from Second Avenue East to Somerville Road.
7. Second street south from Second Avenue East to Ninth Avenue West.
8. Third Avenue East from Prospect Drive to Fourth street south.
9. Seventh Avenue West from Moulton to Second street south.
9. Sixth Avenue West from Moulton to Third street south.
10. Third Avenue West from Moulton to Third street south.
8. Second Avenue East from Jackson to Prospect.
11. Jackson street from Eighth Avenue East to Somerville Road.
12. Somerville Road from Tennessee river to corporation line.
13. Sixth street south from Third Avenue East to Sixth Avenue East.

SECTION 3: That all previous ordinances or parts of ordinances in conflict herewith are hereby repealed.

Adopted August 19, 1919.
Attest:
HENRY HARTUNG, Clerk.
I hereby approve the foregoing ordinance, this 20th day of August, 1919.
A. C. DILLEHAY, Mayor.

Liquid Accident.

Secretary Elmer Thompson of the Automobile Club of America said in New York the other day:

"The automobile gets the blame for everything. A man lay in the middle of the road one evening, surrounded by a large crowd. An old lady pushed her way into the crowd and said:

"Poor fellow! Poor young fellow! I suppose an automobile ran into him."

"No, ma'am," said a policeman. "It wasn't an automobile that ran into him this time."

"What was it, then?" said the old lady.

"It was a keg, or maybe a keg and a half of beer," said the policeman."

Seek to Retain Youthfulness.

As I approve a youth that has something of the old man in him, so I am no less pleased with an old man that has something of the youth. He that follows this rule may be old in body, but never can be so in mind.—Cicero.

Hudson Observing Tenth Anniversary

Growth of Factory Graphically Illustrates Tremendous Strides Made by Automobile Industry in Last Few Years.

With more than six million automobiles officially listed in the United States, it is difficult to believe that as recently as 1893 a "new-fangled contraption" covered its first mile without the aid of horse power, although greeted with more or less derision, or that a circus, only a few short years ago, actually exhibited a horseless vehicle as a curiosity.

In the few years since that time the manufacture of automobiles has become the nation's third largest industry employing nearly a million workers whose yearly wages amount to more than \$747,000,000. The total capital invested is estimated at more than a billion and a half dollars.

The phenomenal growth of the industry is graphically illustrated by the tremendous expansion of the Hudson Motor Car company which is just observing its tenth anniversary, said Frank S. Harris today. "The first Hudson was built just ten years ago in a little two-story plant employing less than five hundred men. Although the company was incorporated in February, 1909, the first car was not shipped until July 3 of that year. Today the Hudson factory covers twenty-six acres of ground. The number of its employees has increased steadily until now there are nearly five thousand persons on its payroll. The manufacturing space occupied totals more than one million square feet and is being enlarged constantly. It is the largest factory in the world devoted exclusively to the production of fine automobiles.

"The year of its birth the factory shipped 1,100 cars valued at less than \$1,000,000. This year its volume of production is valued at more than \$56,000,000. The first year the floor space occupied totaled scarcely 80,000 square feet. Today you may walk for more than five miles within the plant and never see the same thing twice.

"During these ten years the steady increase in production, the never satisfied demand for Hudson cars has resulted in the constant enlargement of facilities which now provide for micrometer accuracy in every one of the 10,000 operations necessary in building Hudson cars. Completely equipped chemical and metallurgical laboratories are maintained in the factory to make sure that only the very highest grade of material is used.

"To safeguard the welfare of the army of workers there is a model and fully equipped hospital ward to take care of accident cases. A restaurant provides food for 2,000 employees at least every noon hour. Each day it dispenses 600 pounds of meat, 90 loaves of bread, 200 home baked pies, six bushels of potatoes, 600 pints of milk, 40 gallons of coffee besides many other things.

"In connection with the restaurant there is a refrigerating plant and a butchering shop. All meats are purchased whole, the butchering being done on the premises. Also there is a model laundry that washes every day 100 pounds of wiping rags, four dozen white coats and dresses worn by different employees, 500 towels and 3,000 napkins.

"The completeness and perfection of the Hudson plant, which have contributed so greatly to the high quality of its output have attracted visitors from all parts of the world.

"Many of the methods it originated have been widely copied by others, but it still remains the greatest plant in the world devoted exclusively to the production of fine cars. And it is growing greater each day."—Advertisement.

MOST FRAGRANT OF FLOWERS

Baltimore Admirer Declares the Breath of the Lilac Stands Unmatched for Sweetness.

When the lilacs breathe, odors of Araby become fetid and astringent in comparison. When the lilacs breathe, their odorous breath carries the fragrance of the distillation of a generation of life and love that they have gathered to themselves, where they have bloomed by the garden wall or against the porch pillar. The home—wonderful in the vividness of its memories and associations—is created by the plucking of beauty and tenderness that the fragrance of the blossoming lilacs brings to the mind. One sees the path through the garden winding down to the clump of lilacs. The faces of other days are framed in the pictures that fancy creates through the magic of the lilacs.

The panicles of bloom are in full flower and the blooms will be hailed with joy by the multitudes who have in their feelings the sentiments to which lilacs appeal. They are a meditative and reflective kind of flower. They come so quietly in the spring. They bloom forth so abundantly and magnificently. They sing their concert to the airs of April and cause the four winds of the heavens to become their survivors to the joy of mankind.

The lilacs are the softest and most persuasive of all tints, those of lavender and purple, with some of driven whiteness. How wonderful their beauty, the assembling of the blossoms and their disposition upon the branch! How full of art! How exquisitely Dresden is the lilac as it swings in the breeze! And every lilac bush is a product of years of growth, and that growth goes on perennially until one and another generation is laid beneath the sod, and the lilac has been intrusted with the cherished memories of youth and maturity and age—passed out of life.—Baltimore American.

INTRODUCES DRUG IN LUNGS

French Physician's Method of Administering Chloroform Said to Be Pronounced Success.

A new method of administering chloroform, brought out in France by Dr. Guise, is described in the Scientific American. The doctor no longer applies the drug by the usual compass or mask placed over the mouth, but introduces the chloroform vapor directly into the lungs through a tube running into the windpipe. The tube method has already been employed in several hundred cases, and with great success. Besides being very useful for operations to be performed in the head and neck, it is of great interest because it never produces nausea.

The effects of the new method will serve to explain the reasons why chloroform operations always produced nausea when operating by the former method, for it appears evident that the nausea was caused by a part of the chloroform vapors being absorbed by the oesophagus and the stomach.

Average Intelligence.

There have been a number of reports about the results of the psychological tests in the army which are not particularly encouraging. Of course it is all very well to find that more than half of those taken in the draft were of an average or of a higher intelligence and that four out of every 100 were of a "very superior" intelligence and eight to ten out of every 100 of "superior" intelligence. This will probably average up higher than what would be secured in any European country, but the fly in the ointment is the high relative percentage of those who are "below average" intelligence or of an "inferior" intelligence or are "very inferior," with several grades and degrees even below the "very inferior."

Nelson's Victory Cups.

Recognition of the English "silent navy" which did so much to win the war has come in the presentation of two communion cups to the Royal Naval Barracks church of Portsmouth, England. These cups were used on Nelson's flagship Victory in the battle of Trafalgar. Thus the glory that was England's in the earlier days joins hands with the glory of the present, and the spirit of Nelson is linked with the spirits of the brave men who stood by in all the long months of the North sea vigil. Nine years ago these cups were given to a church in Glasgow. The widow of the rector of this parish now gives them to the navy as the most fitting holder of the goblets, which were made about 1800.

Misunderstanding.

"The Germans are always being misunderstood, and this misunderstanding is always to the poor fellows' disadvantage."

The speaker was Adolph Jünck, the millionaire dye importer of Duluth. "I know a German motorist," he went on, "who arrived one June evening at a crowded country road house. When the clerk told him the house was full, he said desperately:

"Can't you at least give me a bundle of hay somewhere?"

"There ain't a thing left, mister," said the clerk, "but a bit of cold mutton stew."

New Substitutes for Oil.

A factory has been started in Sweden for extracting oil from schist, thus adding one more to the number of substitutes already on the market. Large quantities of alum schist are found in the district, yielding benzoic and crude oils.

Mental Strain for the Kid.

We must not expect too much of the child and probably all that we can reasonably ask is that he see that the safety pin is closed before swallowing it.—Olato State Journal.

You Can't Cure Rheumatism With Liniments and Lotions

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will? Do not try to rub the pain away, for you never will succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood

of the germs that cause the disease. S. S. S. has no equal as a blood cleanser, scores of sufferers say that it has cleansed their blood of Rheumatism and removed all trace of the disease from their system. Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 49 Swift Laboratory, Atlanta, Ga.

"Southern" Tires Give More Than Their Full Guaranteed Mileage

The makers guarantee 5,000 miles.
The tires double it—10,000 miles.
Mr. Pete Calamas says, 17,000 miles

over the roughest kind of roads—between Augusta and Camp Hancock. He writes:

"At times the roads were in horrible condition—slush half way up to the axles. I equipped the rear with two 34 by 4 1/2 'Southern' tires. One of them did 17,000 miles before it was worn out—the other one is still on the car and running."

"Southern" Tires are Thick Tires

"Southern" tires are hand made tires—built layer on layer by skilled tire makers. The best materials are used: fabric made of extra strong Sea Island cotton; pure gum, fine Para and Ceylon plantation rubber, new and live, and high-grade compounds.

"Southern" tires are tough, resilient and very hard to puncture. The treads are one-eighth to one-fourth of an inch thicker than most other treads. The side walls are one-thirty-second to three-thirty-seconds of an inch thicker than those of most other tires selling at about the same price.

There are "Southern" tires for every car, plain and non-skid treads. When you next need a tire think of the above facts and let your good tire judgment lead you to select a "Southern".
